MARCELO M. ORENSE

Assistant Executive Director

FOREWORD

This report is one of a series of provincial reports on the results of the 1980 Census of Population and Housing conducted on May 1, 1980.

Demographic data presented herein consist of population distributions according to age, sex, marital status, highest grade completed and literacy. Other bases as gainful occupation, industry and migration are included likewise.

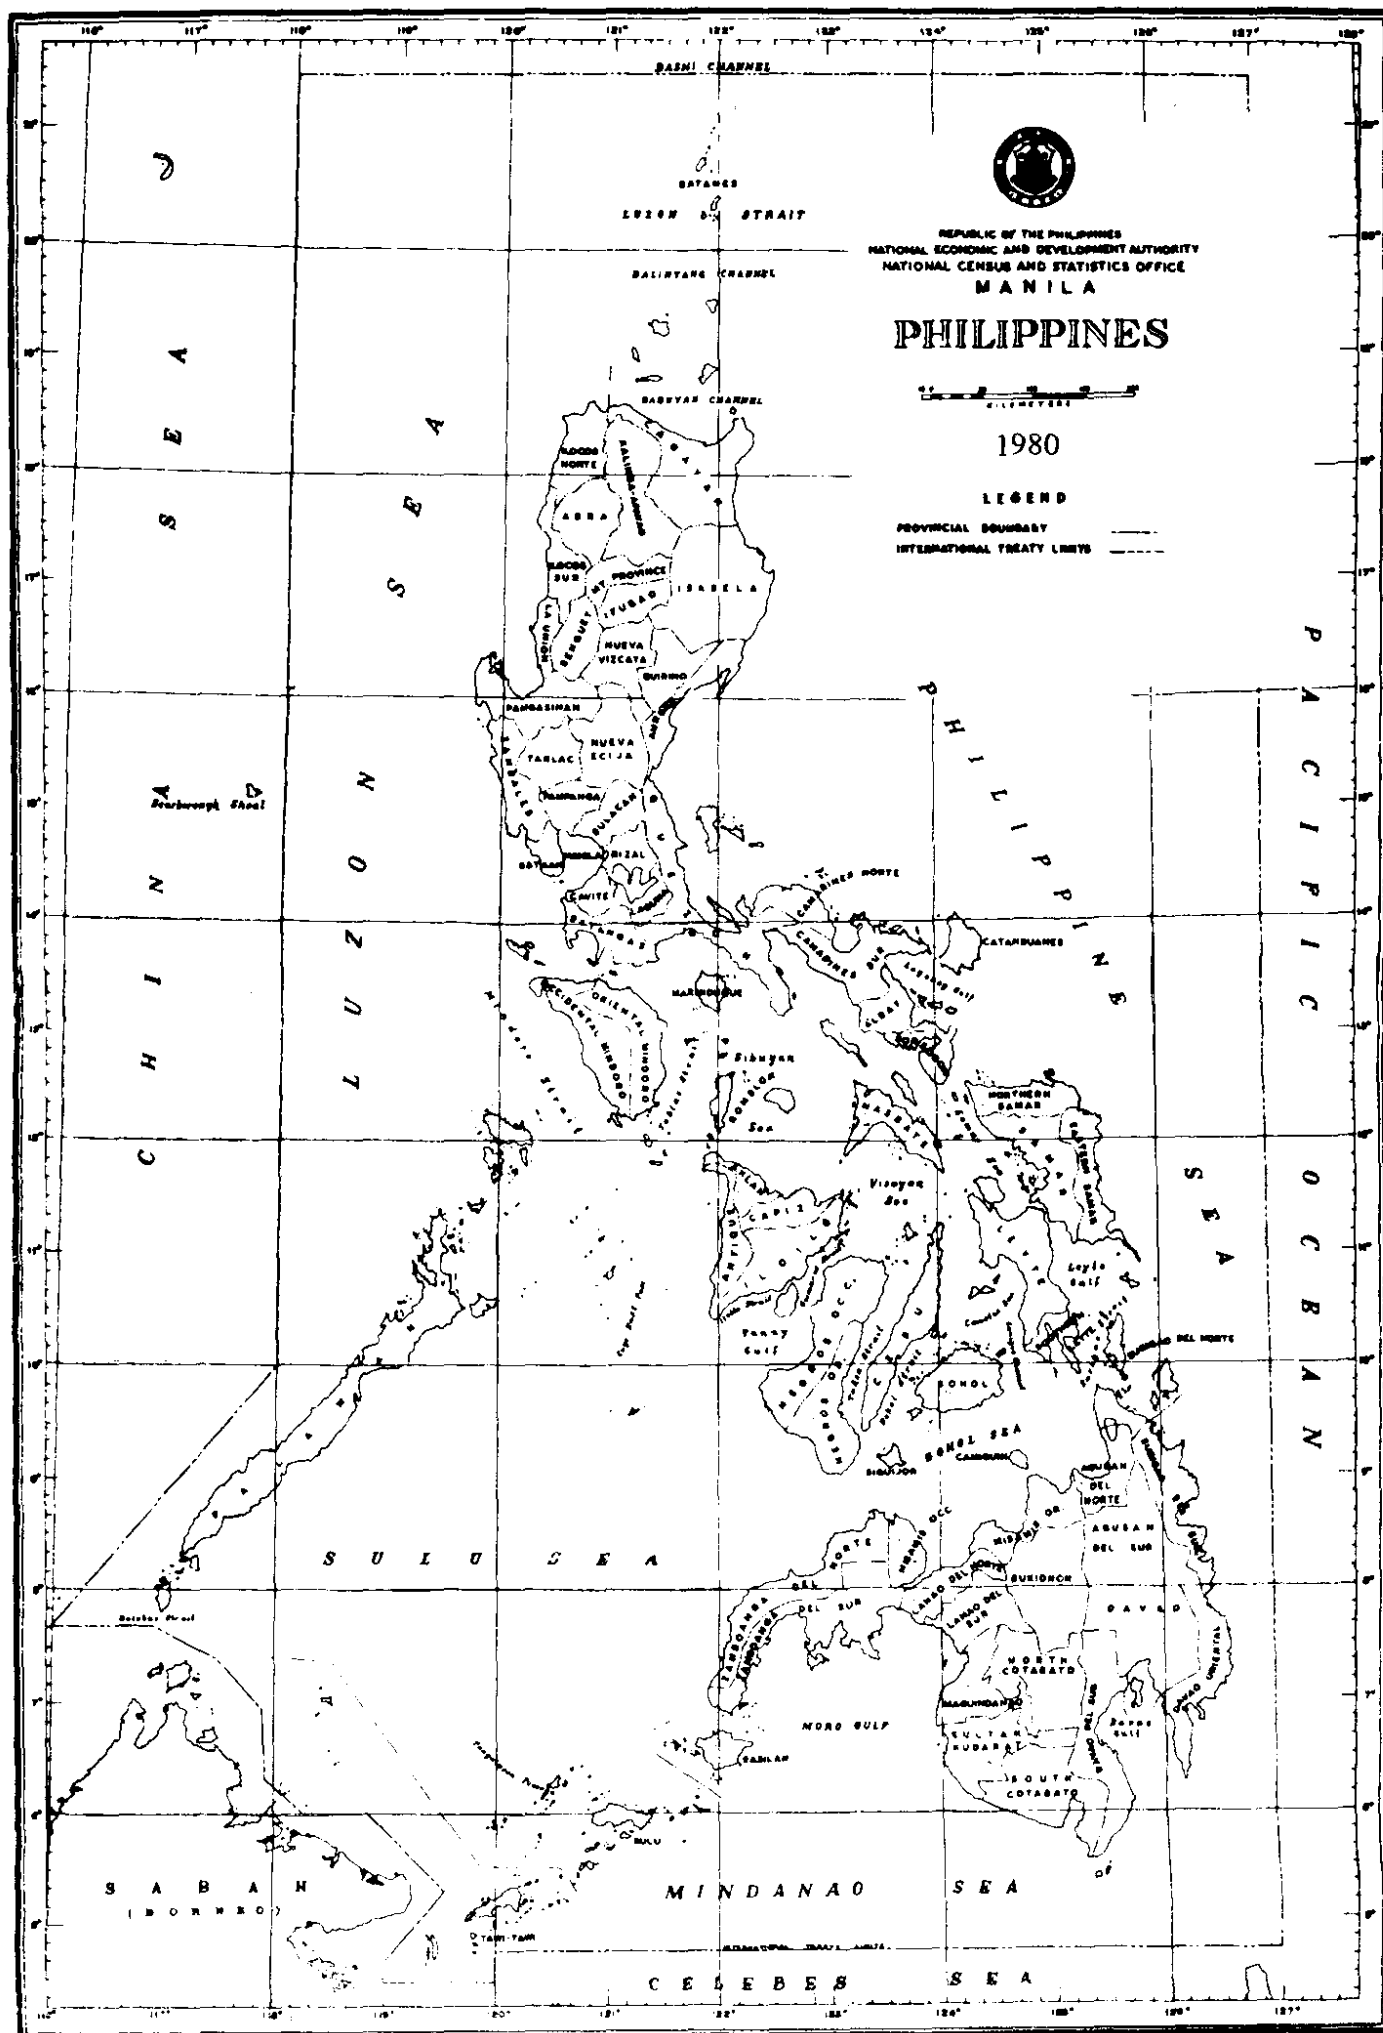

In the other aspect of the census, the following housing characteristics are considered: type of building, structural characteristics, floor area, type of tenure, use and source of water supply, lighting, type of toilet facilities, kind of cooking fuel used and appliances.

Subsequent issues will be the National Summary (Volume II) containing summary data on the final provincial reports and the Special Volume on National Capital Region (Metro Manila Area) which will cover data on the social, economic and demographic characteristics of the region.

Grateful acknowledgment is due the National Census Coordinating Board, government agencies, committees and the local coordinating boards for their invaluable assistance and cooperation.

TITO A. MIJARES

Manila, Philippines
May 1983

POPULATION TABLES	
1. Population Enumerated in Various Censuses: 1903-1980	1
2. Population By Single-Year Age Classification and Sex, Urban-Rural: 1980	2
3. Population By Age Group, Sex and Municipality, Urban-Rural: 1980	4
4. Population 10 Years Old and Over By Age Group, Sex, Marital Status and Municipality, Urban-Rural: 1980	9
5. Private Household Population 7 Years Old and Over By Highest Grade Completed, Age, Sex and Municipality: 1980	50

6.	Literacy of Private Household Population 10 Years Old and Over By Age Group, Sex and Municipality, Urban-Rural: 1980.....	88
7.	Language or Dialect Generally Spoken in Private Households By Municipality, Urban-Rural: 1980	99
8.	Private Household Population 15 Years Old and Over By Gainful and Non-Gainful Occupation, Marital Status and Sex, Urban-Rural: 1980.	101
9.	Gainful Workers 15 Years Old and Over of Private Households By Major Occupation Group, Major and Minor Industry Groups and Sex, Urban-Rural: 1980.	103
10.	Present Residence of Private Household Population 5 Years Old and Over By Place of Residence on May 1, 1975, Sex and Municipality, Urban-Rural: 1980.	121

HOUSING TABLES

1.	Number of Households in Occupied Dwelling Units By Type of Building, Type of Occupancy and Municipality, Urban-Rural: 1980	125
2.	Number of Households in Occupied Dwelling Units By Year Built, Construction Materials of Roof and Outer Walls, Urban-Rural: 1980	131
3.	Number of Households in Occupied Dwelling Units By Type of Building, Floor Area and Municipality, Urban-Rural: 1980	133
4.	Number of Households in Owner-Occupied Dwelling Units By Type of Building, Tenure of the Owner-Occupant with Respect to the Land and Municipality, Urban-Rural: 1980	142
5.	Number of Households in Occupied Dwelling Units By Kind of Lighting and Municipality, Urban-Rural: 1980	153
6.	Number of Households in Occupied Dwelling Units By Use and Source of Water Supply and Municipality, Urban-Rural: 1980	154
7.	Number of Households in Occupied Dwelling Units By Type of Toilet Facilities and Municipality, Urban-Rural: 1980.	167
8.	Number of Households in Occupied Dwelling Units By Kind of Cooking Fuel and Municipality, Urban-Rural: 1980	168
9.	Number of Households in Occupied Dwelling Units with Household Appliances By Municipality, Urban-Rural: 1980.	169

Explanatory Text

GENERAL

INTRODUCTION

The National Census and Statistics Office conducted in May 1980, the 1980 Census of Population and Housing. This type of Census was also undertaken in May 1970. In May 1975 the Census of Population was taken as Phase I of the 1975 Integrated Census of the Population and Its Economic Activities. This nationwide undertaking was designed to obtain comprehensive data on the size, distribution, structure, change and socio-economic characteristics of the population and to take inventory of the housing accommodations, their geographic location, structural characteristics, available facilities, etc.

The population report contains data gathered from private households as well as collective households, while data on housing were collected from private households only.

It should be emphasized at this point that a complete enumeration of all households throughout the country was made but only sample household questionnaires representing 20 percent of the listed households were processed and the data published in this volume. In so doing, however, the total population count by barangay, male and female, obtained from the listing sheet taken simultaneously during the enumeration was maintained in computing the weights or expansion factors. It should also be noted that data on Tables 1 to 4 of the population tables refer to total population, that is, the population of the private households plus the collective households while Tables 5 to 10 cover exclusively the private household population.

Pursuant to the provision of Batas Pambansa Bilang 72, a final count of the population, by sex at barangay level was submitted to the President and was approved under Proclamation No. 2170 dated March 12, 1982. This report was published separately in 74 provincial volumes.

AUTHORITY FOR THE 1980 CENSUS

Under Commonwealth Act No. 591, the National Census and Statistics Office is authorized "to prepare for and undertake all censuses of population, agriculture, industry and commerce."

It may be mentioned in this regard that sometime in February 1980 Parliamentary Bill No. 809 was presented at the Batasang Pambansa, providing for the taking of an integrated census every ten years beginning 1980, with May 1 of every census year as the reference date. This bill was approved into Batas Pambansa Bilang 72 on June 11, 1980, more than one month after the start of enumeration.

INTER-AGENCY PARTICIPATION

The expertise and technical advice of the National Economic and Development Authority Inter-Agency Committee on Population and Vital Statistics and its Technical Working Group on 1980 Census of Population and Housing played a vital role in the successful undertaking of the census.

The Committee's main function was to review the questionnaire, methodologies, concept, tabulation and other related aspects of the census in the production of data and development of systems that would produce more reliable and accurate result. It had for its chairman the Dean of the University of the Philippines Population Institute (UPPI) and for its members, one representative each from the Ministries of Human Settlements (MHS), National Defense (MND), Education and Culture (MEC), Health (MOH) and Local

EXPLANATORY TEXT

Government and Community Development (MLGCD); the Commission on Population (POPCOM); National Economic and Development Authority (NEDA); and two representatives from the National Census and Statistics Office (NCSO). The Technical Working Group (TWG) for the 1980 Census of Population and Housing was headed by the Chief of the National Census and Household Surveys Department of NCSO and the members were representatives from the MHS, EPRS-NEDA, SCO-NEDA, POPCOM, UPPI, MOH, MEC, and the National Housing Authority (NHA).

Recommendations were likewise solicited from other government agencies for questions that should possibly be included in the population and housing portions in order to fill their data needs.

As early as August 1977, an NCSO Technical Committee for censuses was created. Ranking officials of the National Census and Statistics Office comprised the committee, with the Assistant Executive Director as Chairman, the Chief of the National Census and Household Surveys Department (NCHSD) as Vice-Chairman and Heads of six other departments and staff offices as members.

The committee coordinated with the Inter-Agency Committee and TWG of the NEDA on the technical aspect of the census and rendered a monthly progress report to the Executive Director. It provided the overall direction of the activities of the different subcommittees on census. The two subcommittees created, the Sub-Committee on Population and Housing Census and the Sub-Committee on Operations and Logistics Support, were directly charged with the preparatory work for the census undertaking.

CENSUS BOARDS

A systematized involvement of government agencies and instrumentalities was made possible largely through the concerted efforts of the members of the National Census Coordinating Board (NCCB) and the Provincial, City and Municipal Census Boards. The national board was created by NEDA Memorandum Order No. 4-80, dated April, 1980 and the local boards, by Memo Order No. 5-80, dated April 1, 1980, by virtue of the powers vested in the Minister of Economic Planning under Section 3 of Presidential Decree No. 1200.

The NCCB was headed by the Minister of Economic Planning as Chairman with the Executive Director as Executive Officer. Named as members were the Ministers of Agriculture, Budget, Education and Culture, Finance, Human Settlements, Public Works, Justice, Labor, Local Government and Community Development, National Defense, Natural Resources, Public Highways, Public Information and Transportation and Communication. Rules and regulations necessary for the successful undertaking of the census were issued by the Board.

At the local government level, similar functions were carried out by the Provincial City and Municipal Census Boards. The Provincial Governor headed the Provincial Census Board while the Division Superintendent of Schools was Vice-chairman. Members were the Highway District Engineer, Provincial Auditor, Provincial Commander of the Philippine Constabulary, the Provincial Development Officer and the Provincial Agriculturist. The City Census Board was composed of the City Mayor as Chairman; City Superintendent of Schools, Vice-chairman; and the City Engineer, City Assessor and City Development Officer, members. Finally, the Municipal Census Board had for its Chairman the Municipal Mayor and ably assisted by the District Supervisor as Vice-chairman. The members were the Municipal Agriculturist, Station Commander, Municipal Treasurer and the Municipal Development Officer.

EXPLANATORY TEXT

For each of these local census boards, the Provincial Census Officer, City Census Officer and the Municipal Census Officer were designated Executive Officer of their respective Board.

CENSUS ORGANIZATION

The overall direction and instructions for the census undertaking emanated from the Executive Director of the National Census and Statistics Office or in his absence, the Assistant Executive Director.

Assisted by the Task Force from the Central Office and in coordination with the local census boards, the Regional Census Officers and the Provincial Census Officers directly supervised the field operations in their respective areas. The services of District Supervisors, Head Teachers and elementary school teachers from public schools were utilized as City/Municipal Census Supervisors, Team Supervisors and Enumerators in that order.

During the field operations, the 1980 Census Operations Center under the overall supervision of the National Census and Household Surveys Department Chief, was the operating body that monitored the overall operations. Lending support to the center were the Administrative and Fiscal Services Staff.

METHOD OF ENUMERATION AND USE OF SAMPLING

The household was used as the enumeration unit and a complete listing of dwelling units, including vacant ones, was done.

A combination of complete enumeration and sampling was adopted. While all households were asked on the count of the population and housing characteristics, only twenty percent (20%) were asked on other characteristics. The selection of sample households was done systematically with a random start from a listing of households which was prepared simultaneously with the enumeration.

Using PH Form 2 (Common Private Household Questionnaire) and with an 80 percent coverage, the items asked on population were household membership, relationship to head, line number of mother, sex, date of birth, age as of last birthday and marital status. For the housing items, the type of building and the construction materials of roof and outer walls, number of rooms, floor area of the dwelling unit and the year the building was built were asked.

In addition to the population and housing items just mentioned, additional information were asked using PH Form 3 (Sample Private Household Questionnaire) from the 20 percent samples such as language or dialect generally spoken at home, citizenship, usual residence of mother at person's birth, residence of person in 1975, ability to speak Pilipino and English, school attendance, highest grade completed, literacy, economic activity of the person, place of schooling or work, fertility, nature of occupancy of the dwelling unit and housing facilities and conveniences.

Collective households were enumerated using PH Form 4, where the information asked were the same as those in PH Form 2, excluding housing items.

PLACE WHERE ENUMERATED

All persons were enumerated in their usual place of residence, which is the geographic place (street, barangay, sitio, municipality or province) where the enumerated person usually resides. As a rule, it is the place where he usually sleeps; therefore, it may be the same as or different from the place where he was found at the time of the census.

EXPLANATORY TEXT

POST ENUMERATION SURVEY

Originally the plan was to conduct a Post Enumeration Survey covering the whole country. For lack of funds the survey had to be confined to Metro Manila. Its purpose was to determine the extent of underenumeration or overenumeration in the 1980 Census of Population and Housing.

A sample of 132 barangays was selected. However, in 59 barangays which were divided into two or more enumeration areas (EAs), an enumeration area was chosen as sample.

A complete listing was made of households in the sample barangays/EAs using PH Form 1-B. Twenty percent of these households were selected as sample households and interviewed using PH Form 2, which was the same questionnaire used for non-sample households during the main enumeration. The housing portion of this form was disregarded.

CONTENT AND COVERAGE OF THE PUBLICATION

In this publication, the population and households were described according to the respective items listed below:

Population Items	Housing Items
Age	Type of Building
Sex	Type of Occupancy
Marital Status	Construction Materials of Roof and Outer Walls
Highest Grade Completed	Year Built
Literacy	Floor Area of Dwelling Unit
Language/Dialect Spoken in the Household	Tenure of Owner-Occupant with Respect to the Land
Gainful and Non-Gainful Occupation	Kind of Lighting Facilities
Major and Minor Industry	Use and Source of Water Supply
Migration	Type of Toilet Facilities
	Kind of Cooking Fuel
	Household Appliances

The above items are presented in the ten population tables and nine housing tables of this report.

Except for figures on total population and sex, all other characteristics were based on a 20 percent sample.

Aside from these published tables, 10 other tables on the above characteristics plus 6 statistical tables dealing on ever-married women 15 years old and over are also available to statistical users.

DEFINITION OF TERMS AND CONCEPTS

I – POPULATION

BARANGAY

A barangay is the smallest political unit in the country and generally its enumeration is

EXPLANATORY TEXT

assigned to one enumerator. For enumeration purposes, a large barangay is usually split into parts and each part is called an enumeration area (EA).

ENUMERATION AREA

An enumeration area (EA) is a delineated area assigned to one enumerator, usually consisting of about 300 households. A barangay or part of a barangay may have been designated as an enumeration area.

URBAN AND RURAL AREAS

The same concepts used in the 1970 and the 1975 Censuses were followed in classifying areas as urban. According to these concepts, urbanized areas consist of:

1. In their entirety, all cities and municipalities having a population density of at least 1,000 persons per square kilometer.
2. Poblaciones or central districts of municipalities and cities which have a population density of at least 500 persons per square kilometer.
3. Poblaciones or central districts (not included in 1 and 2), regardless of the population size, which have the following:
 - a. Street pattern, i.e., network of streets in either parallel or right-angle orientation;
 - b. At least six establishments (commercial, manufacturing, recreational and/or personal services); and
 - c. At least three of the following:
 - 1) A town hall, church or chapel with religious services at least once a month;
 - 2) A public plaza, park or cemetery;
 - 3) A market place or building where trading activities are carried on at least once a week;
 - 4) A public building like a school, hospital, puericulture and health center or library.
4. Barangays having at least 1,000 inhabitants which meet the conditions set forth in 3 above, and where the occupation of the inhabitants is predominantly non-farming or fishing.

All areas not falling under any of the above classifications are considered rural.

PERSONS ENUMERATED IN A PRIVATE HOUSEHOLD

The following were counted and enumerated as members of the household:

1. Persons whose usual place of residence is the place where the household lives and present at the time of visit of the enumerator, except those born after 12:01 A.M., May 1, 1980;
2. Persons whose usual residence is the place where the enumerated household lives, but temporarily away at the time of enumeration, such as:
 - a. persons temporarily away on vacation, business or pleasure trip or any other purpose in the Philippines who are expected to be back within six months,

EXPLANATORY TEXT

- or within one year, if abroad;
 - b. students who usually go home to their respective households at least once a week;
 - c. persons working elsewhere who usually go home to their respective households at least once a week;
 - d. patients confined in hospitals for not more than six months at the time of enumeration of the household, except those confined (1) as inmates (not patients in wards for temporary confinement) in tuberculosis pavilions; (2) in mental hospitals; (3) in leprosaria or leper colonies; and (4) in rehabilitation centers for drug addicts;
 - e. trainees in the Armed Forces of the Philippines, if their training is not more than six months;
 - f. convicts and detainees in provincial or municipal/city jails or military camps, who have been confined for not more than 6 months at the time of enumeration of the household, except those who have been sentenced for more than 6 months (including those whose sentence is on appeal), even though just confined; and
 - g. officers and crew members of coastal, interisland, or fishing vessels; officers and crew members of ocean-going vessels who usually go home to their household at least once a year.
3. Boarders of the household who are working, looking for work or studying, and who do not go home at least once a week;
 4. Employees of household-operated enterprises who eat and sleep with the household and who do not go home at least once a week;
 5. Persons (other than those in "3" and "4") whose usual place of residence is elsewhere, but who have been away from their usual place of residence for more than 6 months;
 6. Members of the Armed Forces of the Philippines including draftees, sleeping most of the nights with the household, except those who only board or lodge with the household and who usually go home at least once a week; in such a case, they will be enumerated in their own household;
 7. Persons found in the household who have no usual place of residence elsewhere;
 8. Persons found in the household who are not certain of being enumerated elsewhere;
 9. Persons who consider the dwelling unit of the household as their usual place of residence but are living within the premises of a foreign embassy, ministry, legation or consulate, including non-Filipino employees who have been residents of the Philippines before such employment;
 10. Citizens of foreign countries and Filipinos (balikbayan) who have resided or expect to reside in the Philippines for more than one year from arrival;
 11. Persons who sleep in the same dwelling unit but may not be able to take all or some of their meals with the household because of the nature of their work or other similar reason (they take their meals at place of work, etc.), should be considered as part of the household; and
 12. A household member who is alive as of 12:01 A.M., May 1, 1980, but dies prior to the enumeration of the household.

EXPLANATORY TEXT

PERSONS TOTALLY EXCLUDED FROM THE ENUMERATION

Totally excluded from the population count of the Philippines were:

1. Foreign ambassadors, ministers, consuls or other diplomatic representatives, and members of their households (except Filipino employees and non-Filipino employees who had been residents of the Philippines prior to said employment);
2. Citizens of foreign countries living within the premises of an embassy, legation, chancellory or consulate;
3. Officers and enlisted men of U.S. Military or Naval Forces and non-Filipino members of their households, irrespective of residence; foreigners who are civilian employees in U.S. military or naval stations and member of their families living within the premises of said stations or reservation; (Note: for foreigners who are civilian employees of said stations living outside the station or reservation, see Item 5).
4. Citizens of foreign countries who are Chiefs and officials of international organizations like UN, ILO or USAID, who are subject to reassignment to other countries after their tour of duty in the Philippines, and members of their families;
5. Citizens of foreign countries together with non-Filipino members of their families, who are students or who are employed, or have business in the Philippines and have been in the Philippines or expect to stay in the country for one year or less from arrival;
6. Citizens of foreign countries and Filipinos with usual place of residence in a foreign country, who are visiting in the Philippines and expect to stay in the country for one year or less from arrival (e.g. a *balikbayan* who will return to his usual place of residence abroad after a short vacation or visit in the Philippines);
7. Citizens of foreign countries in refugee camps/vessels; and
8. Residents of the Philippines on vacation, pleasure or business trip, etc. abroad, who have been away or expected to be away from the Philippines for more than one year from departure.

USUAL PLACE OF RESIDENCE

The term refers to the geographic place (street, sitio, barrio/barangay, municipality or province) where the enumerated person usually resides. As a rule, it is the place where he sleeps most of the time; hence, it may be the same as or different from the place where he was found at the time of the census.

HOUSEHOLD

A household usually consists of a group of persons who sleep in the same dwelling unit and have common arrangements for the preparation and consumption of food. A person who lives alone is considered as one separate household. Although in most cases a household consists of a related family group, some household members may have no relationship to the central group. Boarders and servants, for instance are counted as part of a particular household if they take their meals with the household and sleep in the same dwelling unit. Persons who sleep with a household but individually cook their meals or eat elsewhere are each considered as single-person household.

EXPLANATORY TEXT

Three generations may be living in one dwelling unit. If they are divided into two or more groups whose eating arrangements are independent from each other, each group is counted as a separate household.

PERSONS NOT LIVING IN HOUSEHOLD

Falling under this category are persons living in collective living quarters such as welfare institutions (orphanages and homes for the aged or infirm); penal and corrective institutions (jails, national penitentiary, and reformatory institutions); hospitals, sanatoria, leprosaria, and nurses homes; dormitories and boarding schools; lodging houses such as hotels, tourist homes and the like; military camps and others.

Most of these institutions house inmates for whom care or custody is provided by resident staff members, or persons residing in group quarters or in housing units on the institutional grounds.

Private families living within such institutions, however, are excluded from the classification, as well as persons (employees, students, etc.) who go home to their families on weekends or days off. Persons found in lodging houses, but who are on vacation or business trips and whose absence from home does not exceed six months on the day of enumeration, are likewise not counted as part of the institutional population.

RESPONDENT

A respondent is any responsible adult member of the household who furnished the information or answers to questions during the interview.

LANGUAGE/DIALECT GENERALLY SPOKEN IN THE HOUSEHOLD

This refers to the language or dialect spoken most of the time by members of the household. In cases where two or more languages/dialects are spoken by household members, the one most often used in conversations among members of the family of the head when most of them are gathered together is considered as the language/dialect generally spoken in the household.

HEAD OF HOUSEHOLD

The person responsible for the care and organization of the household is generally considered as the head of the household. He usually provides the chief source of income for the household.

In the case of a household consisting of two or more unrelated persons sharing a dwelling unit and sharing the same cooking facilities and meals, the head is usually the eldest male or female in the group regarded as such by the other members.

RELATIONSHIP TO HEAD OF HOUSEHOLD

This determines how each household member is related to the head, who is usually the husband or father, although in his absence or if incapacitated, the wife may be designated as head.

1. Spouse — a woman/man married to and living with the head. This includes legal marriages as well as common-law relationships.
2. Son/daughter — the head's own child, stepchild, or adopted child.

EXPLANATORY TEXT

3. Son-in-law/daughter-in-law – refers to a household member related to the head by marriage to his daughter or son.
4. Grandson/granddaughter – child of the son or daughter of the head.
5. Other relative – a household member related to the head by blood, marriage, or adoption. Father, mother, aunts, nephews, parents-in-law and cousins are examples.
6. Others – any person in the household who is usually a non-relative of the head. Boarders and servants fall under this category. Certain members of the household who are related to the head by blood or affinity, but are actually boarders or servants in the household, are classified under "Others".

For collective households and group quarters, the question on relationship refers to the person's relationship to the institution or establishment, and not to the person recorded as head.

AGE AND DATE OF BIRTH

Data on the age of the population were obtained by asking the respondent the month and year of birth and the age itself of the household member before May 1, 1980. To ensure accuracy, a conversion table on age before May 1, 1980 was prepared for the use of enumerators, editors/coders and verifiers.

MARITAL STATUS

This refers to the civil status of all persons 10 years old and over. A person in this age group is classified as single, married, widowed, separated or divorced, or civil status unknown, based on the following definitions:

- a. Single – If never been married.
- b. Married – Legally married or living consensually with husband/wife without benefit of a legal marriage. A person classified as "married" includes one who remarried after having been widowed, separated or divorced or one temporarily separated from spouse owing to the nature of work, illness or service in the Armed Forces.
- c. Widowed – A person whose spouse died and who has not remarried at the time of enumeration.
- d. Separated – If permanently separated from spouse either legally or otherwise, due to marital discord.
- e. Divorced – If bond of matrimony has been dissolved through a court decree and is therefore free to remarry.
- f. Unknown – If civil or marital status is either not known to the respondent, or the respondent himself refuses to reveal the marital status of such person.

CITIZENSHIP

Citizenship is defined as the legal nationality of a person. A citizen is a legal national of the country of the census; an alien is a non-national of the country.

LITERACY

A person is considered literate if he is able to read and write a simple message in any language or dialect.

EXPLANATORY TEXT

HIGHEST GRADE COMPLETED

This has reference to the specific grade or year completed in elementary school, high school, college or university, by persons 7 years of age and over. Academic degree holders are classified according to the title of the degree received or the major field of study undertaken.

USUAL OCCUPATION

This refers to the specific job or kind of work that a person, who works most of the year, is usually pursuing, or if unemployed at the time of enumeration, it is the kind of work he used to do most of the year. A person is considered as usually working most of the year if he works for at least 10 hours a week for 26 weeks either for pay in cash or in kind, for a fee or profit in own farm, business or establishment or practice of a profession and without pay on family farm or enterprise. This particular group of workers is referred to as gainful workers.

For persons who do not work most of the year, the usual occupation relates to the non-gainful activities they usually do most of the year. Among such persons are housekeepers, students, pensioners, retired and disabled. However, a person who is housekeeping or schooling and also works in a gainful activity was reported as gainfully employed, even if more time was spent housekeeping or studying, as the case may be.

INDUSTRY

Industry refers to the specific character and nature of business or industry or the place where the work is being performed in connection with the job or occupation reported for a person.

EVER-MARRIED WOMAN

This refers to a woman who has already entered married life. Marriage here may either be legal or consensual union. At the time of enumeration the ever-married woman may still be married, or already widowed, separated or divorced.

II – HOUSING

BUILDING

A building is any independent free-standing structure comprising one or more rooms or other spaces, covered by a roof and enclosed within external walls or dividing walls with adjacent building which usually extend from the foundation to the roof. It usually contains one or more rooms internally connected with one another. A building therefore, is any structure intended for dwelling, storage, factory, shelter or for some other useful purposes.

For purposes of the 1980 Census of Population and Housing, only the following buildings were listed and assigned building serial numbers:

- a. A house or any kind of building or shelter where people were actually living;
- b. A residential building (house, apartment or accesoria, condominium) that was vacant;

EXPLANATORY TEXT

- c. Hotel, motel, lodging house, dormitory or camp (construction, logging, mining, etc.) in operation;
- d. A commercial, office, industrial, agricultural or other kinds of buildings with one or more dwelling units (containing a kitchen/kitchen-dining room, living room and a bedroom, and with separate entrance) which were all vacant.

The different types of buildings are:

1. **Single house** — a complete structure intended for one household. It includes the so-called “nipa hut” or a small house that is built as a more or less permanent dwelling unit.
2. **Duplex** — a structure intended for two households, with complete living facilities for each. It is divided either vertically or horizontally into two separate dwelling units which are usually identical.
3. **Apartment/accesoria/condominium/row house**

An apartment is a structure usually of several stories, made up of three or more independent entrances from internal halls or courts. It differs from an accesoria in that an apartment has one common entrance from the outside.

An accesoria is usually a one or two-floor structure divided into three or more dwelling units, each dwelling unit having its own separate entrance from the outside. Another name for accesoria is row house.

A condominium is usually a high-rise building where the dwelling units are owned individually but the land and other areas and facilities are owned in common.

4. **Improvised (barong-barong)** — a makeshift or roughly constructed house usually built with salvaged materials.
5. **Commercial/industrial/agricultural** — buildings not intended for human habitation but used as dwelling units at the time of the census.

Commercial — a building used for transacting business or rendering professional services, such as a storage or an office building.

Industrial — a building used for processing, assembling, fabricating, finishing, manufacturing or packaging operations, such as a factory or a plant.

Agricultural — any structure used for agricultural purposes, such as a barn, warehouse, rice mill, etc.

6. **Other housing unit (natural shelter, boat, etc.)**

This refers to living quarters which are not intended for human habitation nor located in permanent buildings but which are, nevertheless, used as living quarters at the time of the census. Caves, other natural shelters and mobile housing units such as trailer, barge, boat, etc., fall within this category.

7. **Hotel, lodging house, dormitory, etc.** — This group comprises permanent structures which provide lodging and/or meals on fee basis. Hotels, motels, inns, boarding houses, dormitories, pensions and lodging houses fall within this category.
8. **Institutional (hospital/convent/school dormitory/penal institution, etc.)** — a building intended for persons confined to receive medical, charitable, or other care treatment such as jails and penal colonies, and other buildings like convents, school dormitories, etc.
9. **Other collective living quarters** — any structure or shelter which does not fall under items 7 and 8. Included in this category are camps which are defined sets of

EXPLANATORY TEXT

premises originally intended for the temporary accommodation of persons with common activities or interests like military camps, and other camps established for the housing of workers in mining, agriculture, public works or other types of enterprises.

DWELLING UNIT

A dwelling unit is a separate and independent place of abode intended for habitation by one household, or one not intended for habitation but occupied as living quarters by a household at the time of the census.

Dwelling units counted included those that are occupied and those that are unoccupied.

CONSTRUCTION MATERIALS OF ROOF

The kinds of materials used are as follows:

1. Galvanized iron/aluminum
2. Tile/concrete/brick/stone
3. Asbestos
4. Cogon/nipa
5. Makeshift/salvaged materials
6. Others (anahaw, etc.)

CONSTRUCTION MATERIALS OF OUTER WALLS

The kinds of materials may be any of the following:

1. Galvanized iron/aluminum
2. Tile/concrete/brick/stone
3. Wood/plywood
4. Mixed tile/concrete/brick/stone and wood/plywood
5. Asbestos
6. Bamboo/sawali
7. Cogon/nipa
8. Makeshift/salvaged materials
9. Others (anahaw, etc.)

If the roof or outer walls are constructed of two or more materials the material most used was reported.

YEAR BUILDING WAS BUILT

This refers to the year when the extent of construction permitted occupancy for living purposes. The year reported was the particular year when the occupancy started or when the building was fit for occupancy even if not occupied.

NUMBER OF ROOMS IN THE DWELLING UNIT

A room is defined as a space in a dwelling unit or other living quarters enclosed by walls reaching from the floor to the ceiling or roof covering, or at least to a height of 1.8 meters which are of permanent or semi-permanent structure, of a size large enough to hold a bed for an adult or at least has an area of 3 square meters.

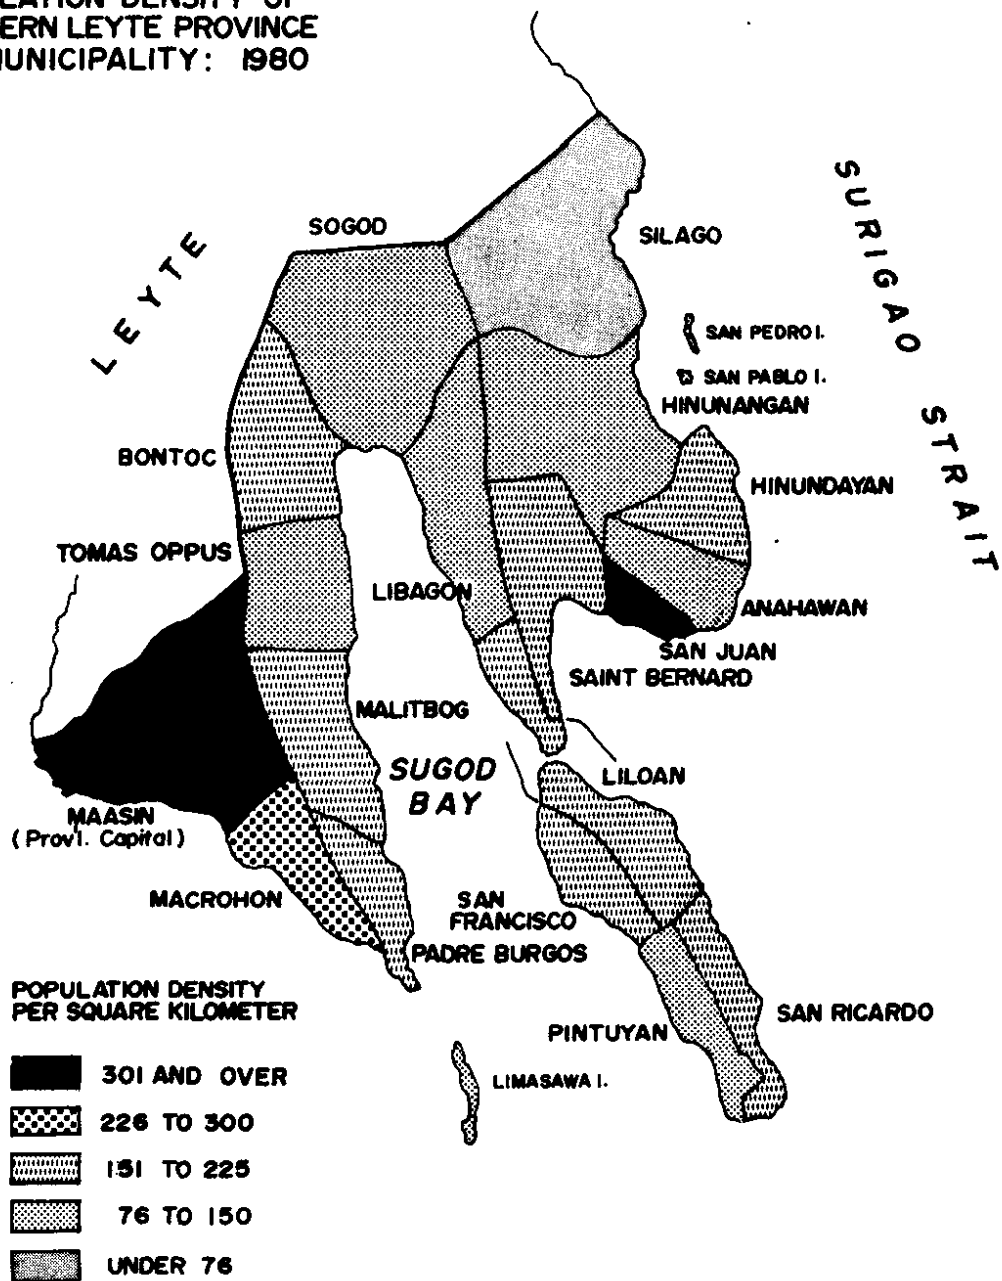

EXPLANATORY TEXT

The total number of rooms reported included the bedrooms, dining room, living room, kitchen, roofed veranda, library or music room and other separate spaces used or intended for dwelling purposes, as long as they meet the criteria of walls and floor space. Passageways, lobbies, bathrooms and toilets or rooms used exclusively as store/shop/clinic/grains storage (nobody sleeps therein) were not counted as rooms even if they meet the criteria.

FLOOR AREA OF DWELLING UNIT

This refers to the space enclosed by the exterior walls of the dwelling unit, or the space measured inside the outer walls of the spaces that are counted as rooms. In case of several floors, the area of each floor in square meters was taken and added together to get the total floor area of the dwelling unit. Areas of floor spaces that are not considered rooms such as bathroom, toilet, storeroom, passageway were excluded in determining the floor area.

**POPULATION DENSITY OF
SOUTHERN LEYTE PROVINCE
BY MUNICIPALITY: 1980**

Southern Leyte: A Brief Analysis

Southern Leyte occupies what once constituted the southernmost portion of Leyte. It was created as a separate province on May 22, 1959 under Republic Act No. 2227 and organized on July 1, 1960. Its provincial boundaries are defined by Leyte on the north and northwest, the Canigao Channel on the southwest, the Bohol Sea on the south, and Surigao Strait on the east.

The small island of Limasawa, off the southern coast of the province, figures prominently in Philippine history. In 1521, Magellan's expedition landed on this island where the first Catholic Mass was celebrated by Father Pedro de Valderrama on March 31.

The provincial terrain is generally mountainous, with hills and valleys along the foot of the mountains. Flat lands are also found on its southern tip. With a land area of 1,734.8 square kilometers, the province constitutes barely 0.58 percent of the total land area of the country. Composed of 17 municipalities in 1970 and 1975, the province now has 18, with Maasin as the provincial capital.

POPULATION

As recorded on May 1, 1980, the population of Southern Leyte stood at 296,294 (males – 150,752; females – 145,542), an increase of 7.19 percent over the 1975 population of 276,418. Population density of the province thus moved up from 159.3 persons per square kilometer in 1975 to 170.8 in 1980. The population figure also indicated an annual growth rate of 1.40 percent, 0.51 percentage point lower than the 1970-1975 rate of 1.91 percent.

A highly rural province in 1970 and 1975, Southern Leyte's rural population further increased to 84.88 percent, thus lowering the urban proportion from 15.87 percent in 1975 to 15.12 percent in 1980. In the urban areas, the proportion of males to the total population decreased from 7.82 percent in 1975 to 7.38 percent, and that of the females, from 8.05 percent to 7.74 percent after five years. On the other hand, the ratio of male and female rural residents to total population increased from 43.20 percent to 43.50 percent and from 40.93 percent to 41.38 percent, respectively.

The succeeding table gives the urban-rural distribution of the population by sex for 1970, 1975 and 1980:

A BRIEF ANALYSIS

**TABLE A – URBAN-RURAL POPULATION BY SEX,
SOUTHERN LEYTE: 1970, 1975 AND 1980**

Area Classification and Sex	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent
Total	<u>296,294</u>	<u>100.00</u>	<u>276,418</u>	<u>100.00</u>	<u>251,425</u>	<u>100.00</u>
Male	150,752	50.88	141,030	51.02	126,147	50.17
Female	145,542	49.12	135,388	48.98	125,278	49.83
Urban	<u>44,795</u>	<u>15.12</u>	<u>43,871</u>	<u>15.87</u>	<u>39,035</u>	<u>15.52</u>
Male	21,863	7.38	21,625	7.82	19,094	7.59
Female	22,932	7.74	22,246	8.05	19,941	7.93
Rural	<u>251,499</u>	<u>84.88</u>	<u>232,547</u>	<u>84.13</u>	<u>212,390</u>	<u>84.48</u>
Male	128,889	43.50	119,405	43.20	107,053	42.58
Female	122,610	41.38	113,142	40.93	105,337	41.90

A BRIEF ANALYSIS

The sex ratio (number of males per 100 females) of the population decreased from 104.17 in 1975 to 103.58, with the males predominating over the females. In the rural areas, males outnumbered the females, for a sex ratio of 105.12, slightly lower than the 1975 sex ratio of 105.54. In sharp contrast, the sex ratio was becoming more pronounced in the urban sector in the past five years (97.21 to 95.34).

Figure 1 presents the 1980 proportion of males and females, urban and rural, in five-year age groups to the total population. As seen in the diagram, the rural and urban sectors deviated from the usual pyramid population structure. In the urban areas, male children 5-9 years old are outnumbered by those 10-14 years of age, while females 10-14 and 15-19 years old exceed those belonging to any of the younger age groups, the 45-49 years by those 50-54, and the 60-64 by those 65-69 years old. In the rural areas, both males and females 60-64 years old are outnumbered by those 65-69 years of age.

AGE COMPOSITION

Persons under 15 years of age make up 42.72 percent of the total population of the province; those 15-64 years old, considered as the productive or working age group, constitute 52.18 percent and adults 65 years old and over, 5.10 percent. Of the total urban population, 37.31 percent are under 15 years of age; 56.66 percent belong to the productive age group and 6.03 percent are at least 65 years old. Comparatively, 43.69 percent of the rural residents are under 15 years of age; 51.38 percent, 15 to 64 years and 4.93 percent, 65 years old and over. Consequently, the median age of the population is older by 2 years from 16 years in 1975 to 18 years in 1980.

Below are comparative figures showing the broad age composition of the population in three censal years:

**TABLE B – AGE COMPOSITION OF THE POPULATION,
SOUTHERN LEYTE: 1970, 1975 AND 1980**

Age Composition	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent
Total	<u>296,294</u>	<u>100.00</u>	<u>276,418</u>	<u>100.00</u>	<u>251,425</u>	<u>100.00</u>
0 – 14 years	126,582	42.72	124,523	45.05	117,106	46.58
15 – 64 years	154,599	52.18	141,472	51.18	124,565	49.54
65 years and over	15,113	5.10	10,423	3.77	9,754	3.88

Dependency ratio (number of dependents for every 100 persons in the productive age group) for the province dropped from 95.39 to 91.65 due to the increased percentage of persons in the productive or working age group (15-64 years). Rural dependency ratio was markedly higher than the urban ratio, 94.63 for rural and 76.50 for urban.

A BRIEF ANALYSIS

MARITAL STATUS

Married persons comprised 49.14 percent of the total population 10 years old and over. Married persons among urban dwellers totalled 44.96 percent compared with 49.94 percent in the rural populace. Never married individuals, likewise, decreased to 45.42 percent from 47.98 percent in 1975, with shares of 48.86 percent among urban dwellers and 44.76 percent among rural residents. Widowed persons accounted for 4.50 percent; the divorced or separated, 0.85 percent; and 0.09 percent did not disclose their marital status.

Never married males totalled 48.45 percent of all males 10 years old and over, a decrease of 2.58 percentage points from that of 1975. The proportion of married males at 48.19 percent, increased 1.78 percentage points and those of the widowed and the divorced or separated increased to 2.63 percent and 0.65 percent, respectively. Among the females, 42.34 percent were single following a decrease of 2.47 percentage points since 1975. Married females rose from 49.48 percent in 1975 to 50.10 percent. Those widowed moved up to 6.39 percent as did those divorced or separated to 1.06 percent. For both males and females, those who did not disclose their marital status, likewise, increased to 0.08 percent and 0.11 percent, respectively.

**TABLE C — POPULATION 10 YEARS OLD AND OVER BY SEX AND
MARITAL STATUS, SOUTHERN LEYTE: 1970, 1975 AND 1980**

A BRIEF ANALYSIS

HIGHEST GRADE COMPLETED

Persons with elementary education still remain at a high level, although its proportion dropped from 68.35 percent in 1975 to 63.61 percent of the total private household population 7 years old and over in 1980. Those schooled until the secondary level increased by 4.04 percentage points to 19.36 percent. Those who had entered college and were still undergraduates comprised 4.54 percent, compared to only 3.07 percent in 1975, while academic degree holders, likewise, increased from 1.89 percent to 2.58 percent. On the other hand, the proportion of those who had no formal education as well as those who did not reveal their highest grade completed decreased to 9.69 percent from 10.51 percent and 0.22 percent from 0.86 percent, respectively.

Of those who had elementary training, 34.99 percent did not go beyond third grade; 19.84 percent finished fourth grade; 14.97 percent, fifth grade and 30.20 percent, sixth or seventh grade. Among those persons with secondary education, 72.07 percent reached anywhere from first year to third year and 27.93 percent went through fourth year or higher. Majority (84.32%) of those who attended college completed at most the third year while the rest (15.68%) finished fourth year or higher (Table 5).

A BRIEF ANALYSIS

The following table shows the distribution of the private household population 7 years old and over according to highest grade completed in the last two censal years:

**TABLE D – PRIVATE HOUSEHOLD POPULATION 7 YEARS OLD AND OVER
BY HIGHEST GRADE COMPLETED, SOUTHERN LEYTE: 1975 AND 1980**

Highest Grade Completed	1980		1975	
	Number	Percent	Number	Percent
Total	<u>234,498</u>	<u>100.00</u>	<u>216,586</u>	<u>100.00</u>
No grade completed	22,725	9.69	22,771	10.51
Elementary	149,163	63.61	148,030	68.35
High school	45,398	19.36	33,184	15.32
College	10,639	4.54	6,651	3.07
Academic degree holder	6,052	2.58	4,091	1.89
Not stated	521	0.22	1,859	0.86

**FIG. 3 – PRIVATE HOUSEHOLD POPULATION 7 YEARS OLD AND OVER
BY HIGHEST GRADE COMPLETED, SOUTHERN LEYTE: 1980**

A BRIEF ANALYSIS

LITERACY

The literacy rate of the private household population 10 years old and over stood at 80.63 percent in 1980. Urban areas had a higher rate of literacy (89.02%) than their rural counterparts (79.03%). This may be attributed to the accessibility of more schools in urban areas. Females turned out to be more literate than males, both in the urban and rural areas. Urban females registered a literacy rate of 89.66 percent as against 88.32 percent for the males. In the rural areas, the female literacy rate (81.07%) was markedly higher than the rate for the males (77.06%) (Table 6).

A BRIEF ANALYSIS

LANGUAGE OR DIALECT

Ten languages and dialects are reported spoken in the 18 municipalities of the province, but Cebuano remains as its major dialect. In the municipalities of Padre Burgos, Pintuyan and San Francisco, no other dialect is spoken except Cebuano.

Most (98.90%) of the 53,770 private households speak Cebuano, 96.11 percent in the urban areas and nearly all (99.39%) of the private households in the rural areas. About 0.59 percent reported Lineyte-Samarnon (Waray); 0.33 percent, Bicol; 0.11 percent, Tagalog; and 0.02 percent, Maranao (Table 7).

A BRIEF ANALYSIS

GAINFUL OCCUPATION

Of the 169,615 private household population 15 years old and over, 48.28 percent are engaged in gainful occupations.

Agricultural, animal husbandry and forestry workers, fishermen and hunters, the single largest group, make up 71.45 percent of all gainful workers, 3.31 percentage points lower than in 1975. Production and related workers, transport equipment operators and laborers remain second in rank by comprising 9.07 percent or a slight increase of 0.72 percentage point from that in 1975. From fifth place in 1975, service workers emerge as the third largest group at 6.12 percent. Professional, technical and related workers moved up to 5.48 percent, while sales workers correspondingly decreased to 4.22 percent. Clerical and related workers account for 1.97 percent and administrative, executive and managerial workers, the least among the group, constitute only 0.22 percent. Workers with unclassifiable occupation account for 1.47 percent (Table 8).

**TABLE E – GAINFUL WORKERS 15 YEARS OLD AND OVER
BY MAJOR OCCUPATION GROUP, SOUTHERN LEYTE: 1975 AND 1980**

Major Occupation Group	1980		1975	
	Number	Percent	Number	Percent
Total	<u>81,904</u>	<u>100.00</u>	<u>67,739</u>	<u>100.00</u>
Professional, technical and related workers	4,488	5.48	3,179	4.69
Administrative, executive and managerial workers	180	0.22	267	0.39
Clerical and related workers	1,615	1.97	1,131	1.67
Sales workers	3,452	4.22	3,668	5.42
Service workers	5,013	6.12	2,864	4.23
Agricultural, animal husbandry and forestry workers, fishermen and hunters	58,521	71.45	50,640	74.76
Production and related workers, transport equipment operators and laborers	7,432	9.07	5,655	8.35
Workers not classifiable by occupation	1,203	1.47	335	0.49

INDUSTRY

Agriculture, fishery and forestry, the dominant industry group, provide work to 72.71 percent of the total gainful workers 15 years old and over. Agricultural crop producers chiefly comprise the group (89.57%) followed by the fishery workers (9.34%). Community,

A BRIEF ANALYSIS

social and personal services combining for 12.87 percent, rank the next biggest employer with personal and household services (45.20%), education services (30.30%) and public administration and defense (12.65%) as the leading sources of job. Wholesale and retail trade account for 4.19 percent while manufacturing industry accommodate no more than 3.50 percent with textile, wearing apparel and leather (62.42%), food, beverages and tobacco (14.90%), and wood and wood products, including furniture and fixtures (8.97%) sectors serving as the workers' principal concentrations. Transportation, storage and communication contribute 2.50 percent; construction, 1.90 percent and financing, insurance, real estate and business services, 1.14 percent. Industries with the least number of workers are electricity, gas and water with 0.12 percent and mining and quarrying, 0.06 percent. Workers with activities not adequately defined constitute 1.01 percent (Table 9).

A BRIEF ANALYSIS

MIGRATION

Out of 250,964 private household population 5 years old and over, 96.21 percent were residing in the same municipality where they had lived on May 1, 1975. Only 1.29 percent were then residing in another municipality within the province (intra-provincial migrants), while 2.41 percent were residing in another province (inter-provincial migrants). A negligible percentage of the population (0.09%) were residents of another country. The females outnumbered the males in the first two migratory movements – intra-provincial migration (0.67% females; 0.62% males) and inter-provincial migration (1.24% females; 1.17% males). On the other hand, migration from other countries were almost the same for both males and females (0.05% males; 0.04% females) (Table 10).

TYPE OF BUILDING

Of the 53,770 households in the province, 97.99 percent are occupying single houses. The rest live either in duplex (0.84%), apartment/accesoria/condominium/row house, etc. (0.18%); improvised structures like barong-barong (0.71%); commercial/industrial/ agricultural buildings (0.27%); or in hotel, lodging house, dormitory, etc. (0.01%).

Most of the households living in single houses are in the rural areas (85.46%); only 14.54 percent are urban dwellers. Likewise, occupants of improvised structures (barong-barong) are mostly rural dwellers (81.05%) while the remaining 18.95 are urban residents. The proportions of households living in duplex in urban areas are 49.01 percent and 50.99 percent, respectively. As expected, majority of the apartment/accesoria/condominium/row houses (57.89%) as well as commercial/industrial/agricultural buildings (56.08%) are occupied by households in the urban areas.

The following table presents the housing conditions of households in Southern Leyte during the past 10 years:

**TABLE F – NUMBER OF HOUSEHOLDS IN OCCUPIED DWELLING UNITS
BY TYPE OF BUILDING, SOUTHERN LEYTE: 1970 AND 1980**

Type of Building	1980		1970	
	Number	Percent	Number	Percent
Total	<u>53,770</u>	<u>100.00</u>	<u>43,426</u>	<u>100.00</u>
Single house	52,689	97.99	40,453	93.15
Duplex	453	0.84	488	1.12
Apartment/accesoria/condominium/row house, etc.	95	0.18	135	0.31
Improvised (barong-barong)	380	0.71	1,961	4.52
Commercial/industrial/agricultural	148	0.27	381	0.88
Other housing unit: naturalshelter, boat, etc.	—	—	—	—
Hotel, lodging house, dormitory, etc.	5	0.01	—	—
Institutional (hospital, convent, school dormitory, etc.)	—	—	8	0.02
Other collective living quarters (military camp, etc.)	—	—	—	—

A BRIEF ANALYSIS

TYPE OF OCCUPANCY

Table 1 shows that 91.32 percent of the total households are owners of their occupied dwelling units. The rest of the households are either tenants/lessees (3.18%), subtenants/sublessees (0.18%) or rent free occupants (5.32%). Majority of both the urban (87.02%) and the rural (92.08%) households own the dwelling units they occupy (Table 1).

CONSTRUCTION MATERIALS OF ROOF AND OUTER WALLS

Dwelling units of about 69.08 percent of the total households have roofs of light materials (cogon/nipa, makeshift/salvaged materials and other, such as anahaw, etc.). The remaining 30.92 percent have their roofs constructed of strong materials (galvanized iron, tile/concrete/brick/stone and asbestos). Of the urban households, 57.84 percent occupy dwelling units with roof of light materials and 42.16 percent, of strong materials. Likewise, dwelling units of rural households are mostly constructed with roof of light materials (71.07%).

As to construction materials of outer walls, the number of households in dwelling units with walls made of strong materials such as galvanized iron/aluminum, tile/concrete/brick/stone, wood/plywood, mixed tile/concrete/brick/stone and wood/plywood and asbestos (51.31%) is higher than those with light materials like bamboo/sawali, cogon/nipa, makeshift/salvaged materials and other, such as anahaw, etc. (48.69%). In the urban areas, 63.05 percent of the households occupy dwelling units with walls of strong materials; the remaining 36.95 percent, of light materials. In contrast, more than one-half (50.77%) of the households in the rural areas are in dwelling units constructed with walls of light materials (Table 2).

YEAR BUILT

Households living in structures of recent vintage (1976-1980) constitute 35.81 percent, 22.76 percent during 1971-1975; 23.45 percent, 1961-1970 and 12.27 percent, 1951-1960. Only 3.37 percent live in buildings constructed during 1942-1950 and 2.34 percent, before World War II (Table 2).

FLOOR AREA OF DWELLING UNITS

More than one-half or 51.74 percent of the total households occupy dwelling units with floor area of less than 30 square meters (Table 3). About 31.46 percent live in 30-49 square meter dwelling units; 8.13 percent, in units of 50-69 square meters; and 4.19 percent, 70-99 square meters. Few households have more spacious dwelling units with floor area ranging from 100-149 square meters (2.60%) to 150 square meters and over (1.88%).

TENURE OF OWNER—OCCUPANT WITH RESPECT TO THE LAND

Of the 49,104 households who own their dwelling units, 54.60 percent also own the land where the structure is erected. The rest are categorized as follows: 20.71 percent, lessee or sublessee; 5.66 percent, farm lessee/agricultural tenant of landowner; 5.31 percent, other legal tenure; and 13.72 percent, no tenure such as squatter, etc. (Table 4).

SOURCE AND USE OF WATER SUPPLY

Faucet, community water system is the common source of water supply for most of the households in the province, either for drinking (52.66%) or for kitchen use (50.85%). Spring, the second common source provide water for drinking to 19.08 percent of the total

A BRIEF ANALYSIS

households and for kitchen use to 18.20 percent. Nearly the same proportions of households obtain their water supply from the tubed/piped deep well for drinking (12.40%) and for kitchen use (12.73%). For the same purposes, 9.95 percent and 11.25 percent, respectively utilize water from dug well and 5.36 percent and 5.63 percent, from tubed/piped shallow well. A few households rely on lake, river, stream, etc. (0.47% for drinking and 1.24 for kitchen needs) while only 0.08 percent and 0.10 percent, respectively, from rain. For washing clothes, more households (48.77%) rely on lake, river stream, etc.; 25.20 percent, from the faucet, community water system; 9.70 percent, from spring; 7.76 percent, from tubed/piped deep well; 5.70 percent, from dug well; 2.80 percent, from tubed/piped shallow well and 0.07 percent from rain (Table 6).

KIND OF LIGHTING FACILITIES

Nine out of ten households use kerosene for lighting; about 7.38 percent use electricity; 1.81 percent, liquefied petroleum gas (LPG); 0.09 percent, oil and 0.07 percent, other such as candle or wax. Most of the urban dwellers (74.37%) likewise, use kerosene for their lighting facilities; 23.91 percent, electricity; 1.55 percent, liquefied petroleum gas (LPG); 0.06 percent, oil and 0.11 percent, other. The pattern in the rural areas is more or less the same as that for the province as a whole, with 93.53 percent of the total households using kerosene; 4.45 percent, electricity and 1.85 percent, liquefied petroleum gas (LPG). An insignificant 0.17 percent use oil and others (Table 5).

COOKING FUEL

Wood or charcoal is still widely used for cooking by Southern Leyte residents. Table 8 shows that a high 92.58 percent of the total households use wood or charcoal. The remaining 7.42 percent use either kerosene (5.24%); liquefied petroleum gas (0.86%); electricity (0.12%); or other such as oil, candle, etc. (1.20%). In both urban and rural areas, the predominant use of wood or charcoal is also observed (91.54% of the total urban households and 92.77% of the total rural households). Very few households cook with kerosene (urban, 4.56%; rural, 5.36%).

TOILET FACILITIES

Water-sealed with other depository is the most common type of toilet facility in the province with 38.35 percent using it. Approximately 32.42 percent use water-sealed with sewer/septic tank; 3.90 percent use the open pit; 3.69 percent, closed pit or antipolo type and 0.90 percent, other such as pail system, etc. More than one-fifth (20.74%) of the households have no toilet facilities. Urban households have better toilet facilities than their rural counterpart. Majority of the urban households (58.98%) use water-sealed with sewer/septic tank, 29.85 percent, water-sealed with other depository; 1.17 percent, closed pit; 1.19 percent, open pit and 0.47 percent, other (pail system, etc.). There are still 8.34 percent of the urban households without toilet facilities. Among rural households, 27.71 percent use water-sealed with sewer/septic tank; 39.86 percent, water-sealed with other depository; 4.14 percent, closed pit; 4.39 percent, open pit and 0.97 percent, other (pail system, etc.). About 22.93 percent have no toilet at all.

A BRIEF ANALYSIS

OWNERSHIP OF RADIO, TELEVISION SET AND REFRIGERATOR/FREEZER

Of the total households in the province, 68.36 percent have radios, 1.01 percent own television sets while 1.90 percent have refrigerators/freezers. Ownership of these appliances is higher among urban than rural dwellers. More than three-fourths (75.20%) of the urban households own radios; 3.72 percent, television sets; and 7.47 percent, refrigerators/freezers. Among rural households, 67.15 percent have radios; 0.53 percent, television sets and 0.91 percent possess refrigerators/freezers (Table 9).

CERTIFICATION

I HEREBY CERTIFY that the data set forth in this form were personally obtained by me in accordance with the rules and regulations promulgated by the National Census and Statistics Office.

Name of person accomplishing this form
(Printed Name & Sign)
Title
Date 1980

PERSONS TO BE ENUMERATED AS MEMBERS OF COLLECTIVE HOUSEHOLDS

1. HOTELS, LODGING HOUSES, DORMITORIES, ETC.

- a. Proprietor, manager and employees living in the establishment, except those living therein with their own families and those who usually go home to their respective families at least once a week.
- b. Permanent lodgers/boarders (those who have stayed or expect to stay for one year or longer) and those temporary lodgers/boarders who have stayed for six months or longer as of May 1, 1980 or have been away from their own families for the same period. However, exclude those who usually go home at least once a week.
- c. Lodgers/boarders who are not residents of the Philippines and who have been in the Philippines for one year or longer as of May 1, 1980, or expect to stay in the Philippines for one year or longer. However, exclude those who have temporary place of residence elsewhere in the Philippines to where they usually go home. Exclude also diplomatic representatives or UN, ILO or USAID officials who, like diplomatic representatives, are subject to reassignment to other countries after their tour of duty in the Philippines, and members of their families.

2. HOSPITALS AND NURSES' HOMES

- a. All patients, including those just confined, in mental hospitals, leprosaria or leper colonies, pavilions of tuberculosis sanatoria where patients stay more or less permanently, and rehabilitation centers for drug addicts.
- b. Patients who have been confined for six months or longer as of May 1, 1980 in other kinds of hospitals and in wards for temporary confinement in tuberculosis sanatoria.
- c. Nurses in nurses' homes who do not usually go home at least once a week.
- d. Staff members and employees living in hospitals/nurses' homes, except those living therein with their families and those who usually go home at least once a week.

3. WELFARE INSTITUTIONS (Homes for the Aged and Infirm, Orphanage, Boys' Town, etc.)

- a. All inmates or wards, including those just confined.
- b. Staff members and employees living in the institutions, except those living therein with their families and those who usually go home at least once a week.

4. CORRECTIVE AND PENAL INSTITUTIONS

- a. All prisoners in national prisons and reformatories (welfareville).
- b. Prisoners and detainees in provincial or city/municipal jails who have been continuously confined for six months or longer, including confinement elsewhere, as of May 1, 1980, or those whose sentence is for six months or longer even if the sentence is on appeal.
- c. Staff members and employees living in the institutions except those living therein with their own families and those who usually go home at least once a week.

5. CONVENTS, NUNNERIES, SEMINARIES, AND BOARDING SCHOOLS

- a. Monks, priests, ministers, nuns, seminarians etc. However, priests or ministers of sects other than the Roman Catholic Church who live in the convent or house close to church or chapel with their own families are to be excluded (private households).
- b. Students in boarding schools (schools where students are required to stay in the school campus).
- c. Staff members, employees and helpers living in the premises, except those living therein with their own families and those who usually go home at least once a week.

6. MILITARY CAMPS AND STATIONS (PC, Army, Air Force and Navy): PMA

- a. Officers and enlisted men/draftees, except those who live in the premises with their own families and those who usually sleep most nights with private households or in hotels, lodging places or dormitories. Include those belonging to the unit in the camp or station who are away on military operation or mission or aboard naval vessels, except those whose families are living in the camp or station (their own families will report them).
- b. PMA cadets and trainees whose training is for six months or longer.
- c. Detainees who have been continuously confined for six months or longer, including confinement elsewhere, as of May 1, 1980.
- d. Civilian employees living in the camp or station, except those living therein with their own families and those who usually go home at least once a week.

7. LOGGING, MINING AND CONSTRUCTION/PUBLIC WORKS CAMPS: PLANTATIONS AND AGRICULTURAL/FISHERIES EXPERIMENTAL OR BREEDING STATIONS, ETC.

- a. Proprietor, manager, contractor and employees who do not live with their families in the premises and are supplied lodging (beddings, etc.) and/or meals by the company, firm, contractor or agency, except those who usually go home at least once a week.

8. OCEAN-GOING AND INTERISLAND/COASTAL VESSELS OR DEEP-SEA FISHING VESSELS

- a. Filipino crew members of ocean-going vessels (whose own families live in the Philippines) at port as of 12:01 A.M. May 1, 1980, except those who usually go home to their own families in the Philippines at least once every six months.
- b. Any crew member of interisland/coastal vessel or deep-sea fishing vessel at port on any day during the enumeration, if the crew member has no home other than the vessel.

9. REFUGEE CAMPS

- a. Filipino citizens working and living inside the camps.
